THE GREAT German Remedy. TRUTHS FOR THE SICK.

I visited South and East Riverside recently, and the improvement since I was there last is great. The sale of land continues, and it is astonishing to me how it holds out—I mean the land, for the prices are 'famey' compared to what they were when I first came, and six months ago, and the millook is 'higher yet' when fage has the water on. They have the water going on White Addition, and it throws a good stream with considerable force. Those who have loss for sale there, say that a condugration in any of the luminary planets could easily be extinguished by it. So we expect the insurance rates to fall somm, and to us easterners, they seem to need to fall a good ways.
